Roses Forever®

STRONG COLORS

Roses Forever is mini roses in many beautiful colors. The series consists of roses for every taste, mood and occasion. Roses Forever is perfect for anywhere in the home, where they light up with the bright colors. Decorate with a mix of roses in many colors at the front door to say welcome. Or enjoy them on the terrace or balcony.

MINI ROSES IN HIGH QUALITY

Roses Forever has a great durability inside, where the filled and well-shaped flowers create a lovely atmosphere. The shiny dark leaves helps to underline the strong colors. Enjoy your roses for many weeks, keeping them evenly moist.

MANY FLOWER BUDS

The many flower buds and large well-shaped flowers are one of the quality characteristics of Roses Forever. When you buy your roses with 1-2 open flowers you will be able to continuously enjoy the many new beautiful flowers for many weeks.

ROMANTIC AND BEAUTIFUL ROSES

Enjoy romance everywhere with Roses Forever. Both inside and out. In flowerpots and vases. In garden pots and beds. And remember, the more colors planted together gives a nice color palette.

WINTER HARDY WHEN PLANTING OUTSIDE

Roses Forever is very suitable for planting in pots and beds where they are winter hardy. At right care, you can enjoy the roses all the way to the frost sets in - and again the years after. Learn more about the care of the beautiful roses on www.rosa.dk
